DECISIONS

The Süleyman Demirel University Education Program Evaluation Board (SDÜTF-EPDK) convened online on 5 July 2022 under the chairmanship of Prof. Dr. Ersin USKUN. At the meeting:

1. Vice Dean Assoc. Prof. Dr. Emine Elif Özkan and the members of the EPDK attended the meeting, which was held via Teams. At the meeting, the letter forwarded to the EPDK by the Student Affairs Unit of the Faculty of Medicine Deanship, on the subject of Course Recommendations in the Field of Medical Devices, was discussed. It was stated that two of the three subjects included in the annex to the letter and recommended to Faculties of Medicine for undergraduate-level education (1. Optimization of clinical research design and problem-solving, and 2. Human trials: methodological approach to clinical research) already appear in the education program and are conveyed to students in Term 3 Course Committee 6 (Term 3 Course Committee 1 in the new program), and that these two subjects are also put into practice in the Public Health clerkship in Term 6. It was shared as an opinion that the subject "Medical Device Legal Regulations and Processes (related processes such as use, vigilance, etc.)," which does not appear in the education curriculum, is not included in the Faculty of Medicine's program, but that it would be appropriate and necessary to provide physician candidates with education on this subject, and that a lack of this education could lead to significant problems for physicians in the use-and-needs-assessment processes related to this subject during their professional lives. It was shared as an opinion that the most suitable place in the education program to convey such a subject to physician candidates would be Term 6, that this could be carried out through an integrated session, that there is a faculty member at our Faculty (Assist. Prof. Dr. Fuat İnce) who has received postgraduate (biomedical) education on this subject, and that he could be designated as the person responsible for this integrated session. Assist. Prof. Dr. Fuat İnce, who was invited to the meeting, stated that he agreed on the necessity of the subject and that he could provide support if assigned. It was also shared as an opinion that the integrated session could be enriched with content related to the relevant legal regulations, the use of medical devices, and needs assessment.

As a result, it was unanimously decided that, since two of the course subjects recommended by the Council of Higher Education are already present in our curriculum, it would be appropriate for the subject "Medical Device Legal Regulations and Processes (related processes such as use, vigilance, etc.)," which is not included, to be placed in the program in Term 6 through an integrated session.

2. It was shared as an opinion that it would be necessary to share the decision taken under item 1 and the current situation with the Council of Higher Education, and that this would constitute an exemplary approach in terms of completing the PDCA Cycle (PUKO Döngüsü / Plan-Do-Check-Act).

3. It was decided that the next meeting would be held on Tuesday, 2 August 2022.
