DECISIONS

The Süleyman Demirel University Education Program Evaluation Board (SDÜTF-EPDK) convened online on 6 September 2022 under the chairmanship of Prof. Dr. Alim KOŞAR. At the meeting:

1. The letter sent by the Patient Rights Unit of the Chief Physician's Office of the Süleyman Demirel University Research and Practice Hospital to the Faculty of Medicine Deanship, and forwarded to the EPDK, was discussed. Regarding the proposal in the letter to add "courses on physician-patient communication" to the Faculty of Medicine's Term 5 program, it was decided that although the courses in question are already given in Terms 1, 2, 3, and 6 of the Faculty of Medicine, a presentation on "physician-patient communication" could be added to the Term 6 orientation program.
2. Information was given by the Term 1 Coordinator's Office regarding the orientation training to be given to first-year students on Monday, 12 September 2022. It was shared as an opinion that a group of Term 6 students would accompany the orientation program this year, and that this would be positive in terms of peer introduction.
3. It was shared as information that in the 2022-23 academic year, student attendance would be taken via the card system four times a day (morning entry, midday exit, afternoon entry, and evening exit).
4. Information was shared regarding the Faculty of Medicine's accreditation process. It was reported that our Faculty was accredited in 2019, that it would be subject to an interim evaluation every three years, that within this scope the 114-page report prepared on the evaluation of compliance with the basic and developmental standards had been sent to TEBDAT, and that a visit could take place around November. It was reported that although the report noted some work related to vertical integration left unfinished in 2020 due to the pandemic period, it was determined that most of the recommendations had been met to a large extent. It was stated that the Self-Assessment Report had been submitted on time. It was shared as information that a separate effort regarding the university's accreditation was ongoing, and that within the scope of work related to institutional accreditation in September, a separate visit could take place to the Faculty of Medicine, but that the schedule had not yet been finalized.
6. Information was given regarding the Intern Workshop and its final report.
7. It was shared that a sufficient number of ÖÇM were not opened this year.
8. It was stated that only a small number of faculty members had responded to serve as advisors on research planning and conduct for Term 3 students. Following the sharing of information that the letter on this matter had not been sent to every department and that what was being requested in the letter had not been fully understood, it was stated that it would be appropriate for the letter to be written more clearly and sent to all departments.
9. It was decided that, in the 2023-2024 academic year, the number of Term 6 clerkship groups would be increased and the number of elective courses would be increased, that the elective course pool would be formed as two pools with two elective courses to be taken, and that the detailed program would be discussed in May 2023 and the course schedule would be created accordingly.
10. It was decided that the next meeting would be held on Tuesday, 4 October 2022.
