DECISIONS

The Süleyman Demirel University Undergraduate Medical Education Board (SDÜTF-MÖTEK) convened on 13 March 2018 in Meeting Hall A of the Dean's Office Building under the chairmanship of Prof. Dr. Münire ÇAKIR, with the participation of 19 board members. At the meeting:

1. It was considered that some topics of the 24-hour Biostatistics course could appropriately be taught within Evidence-Based Medicine in Term 1, while the remaining part could be taught within Public Health in Term 3 and Term 6, since this would likely be more efficient once a certain level of knowledge on diseases and medications had been established.
2. It was decided that the Biostatistics topics overlapping with the Basic Information Technologies course would be simplified.
3. In line with the request of the Department of Physiology, it was decided that the Pathophysiology course, which they had proposed to teach in Term 3, would instead be taught within the clinical clerkships in later years rather than in Term 3.
4. It was decided that, since the content of the Medical Genetics course taught in Term 1 and Term 3 was similar, it should be reviewed again and that the number of lectures taught in both terms should be reduced.
5. It was decided that the Medical Psychology course taught in Term 1 would be removed, and that the Panel on Mental and Physical Integrity in Medical Students and the Communication Skills course would be conducted by the Department of Medical Education and Informatics.
6. It was decided that panels on smoking and addiction would be held from Term 1 through Term 6.
7. It was decided that the next meeting would be held at the same place on 3 April 2018, between 12:30 and 13:30.
