DECISIONS

The Süleyman Demirel University Undergraduate Medical Education Board (SDÜTF-MÖTEK) convened on 3 April 2018 in Meeting Hall A of the Dean's Office Building under the chairmanship of Prof. Dr. Alim KOŞAR, with the participation of 22 board members. At the meeting:

1. It was decided that it would not be appropriate for Neurosurgery education to be given in Term 2, and that providing it as a clerkship in Term 5 would be sufficient.
2. It was decided that, since the course topics of the Department of Anesthesiology in Term 5 show similarity to the Pharmacology course topics, the program would be reviewed and revised.
3. It was decided to ask the faculty members of the Department of Anesthesiology whether it would be possible to incorporate the theoretical lessons of the Anesthesiology clerkship into the surgical clerkships and deliver them within other clerkships, how such a practice would affect the Anesthesiology practical training, and about transferring the Department of Anesthesiology's practical lessons to Year 6.
4. Since it was requested that the Family Medicine clerkship be removed from within Emergency Medicine and conducted as a separate clerkship of 2-4 weeks in Year 6, either before or after Public Health, it was decided that the Head of the Department of Public Health and the Head of the Department of Family Medicine would be invited to the next Education Program Evaluation Meeting.
5. Since students stated that they were not benefiting from the fifteen-day Emergency Medicine clerkship at Isparta City Hospital, it was decided that this training needed to be standardized and structured, and that it would be appropriate for the Emergency Medicine clerkship to be extended to 2 months, with 1 month conducted at the Emergency Department of Süleyman Demirel University Research and Practice Hospital and 1 month at the Emergency Department of Isparta City Hospital.
6. It was decided that the duration of the Public Health clerkship would be reduced and that the freed-up time would be allocated to the Department of Family Medicine.
7. It was decided that the merging of the 3-week Chest Diseases clerkship and the 5-day Thoracic Surgery clerkship would be discussed.
8. It was decided that there could be elective clerkships such as Nuclear Medicine, Sports Medicine, Clinical Pathology, Clinical Pharmacology, Clinical Microbiology, and Clinical Biochemistry.
9. It was decided that the possibility of opening a summer school for short clerkships (2-3 weeks) would be investigated.
10. It was decided that the difficulties regarding attendance-taking for students whose fingerprints could not be captured by the fingerprint system would be investigated.
11. It was decided that the next meeting would be held at the same place on 8 May 2018, between 12:30 and 13:30.
