**DECISIONS**

1. The petition submitted to the Board was examined and evaluated in detail by the Board within the framework of the Special Study Module Directive.
2. The structure of the Special Study Modules, based on small-group activities, and the modular updates made by faculty members in the course information packages were evaluated together; it was concluded that the said arrangements were consistent with the aims of the education-instruction process and with the learning outcomes. For this reason, it was decided that the existing Special Study Module courses would be implemented as planned.
3. It was assessed that planning the Special Study Modules to be opened in the 2026-2027 Academic Year in line with the academic specialization areas and scientific competencies of faculty members would increase the quality of education.
