DECISIONS

The Süleyman Demirel University Assessment and Evaluation Board (SDÜTF-ÖDK) convened online on 7 January 2021 with the participation of the majority of the board members, and at the meeting:

1. On 7 January 2021, the ÖDK convened and discussed proposals for the opening of courses. Regarding the radiological instruments and equipment courses requested by the Department of Radiology to be opened in the spring term, since the term in which the course was requested to be opened was not specified, and since the department could offer it during the clerkship period if necessary, it was decided that it would be more appropriate for the decision on opening the course to be discussed by the EPDK.
2. It was decided that the Health Law courses proposed to be opened by a urology specialist and a health law expert should be discussed by the EPDK, and that, since the course curriculum falls within the course topics of the Department of Forensic Medicine and the Department of History of Medicine and Ethics, it would be appropriate, in line with accreditation requirements, to evaluate the matter within the horizontal and vertical integration framework.
3. It was decided that the next meeting would be held at the same location on 3 February 2021.
