Meeting Date	30 September 2022
Venue	Dean's Office Building, Meeting Hall A

DECISIONS

The meeting of the Süleyman Demirel University Faculty of Medicine Student Council (SDÜ-TFÖK) was held on 30 September 2022 under the chairmanship of Muhammet Emin AĞIR, in Meeting Hall A of the Dean's Office Building, with the participation of the commission members.

At the meeting:

1. It was proposed that the microphone receivers in the Term 1-2-3 lecture halls be lowered so that the batteries would last longer.
2. It was observed that the protective corner caps on the stair edges in the lecture halls had come off, and it was proposed that the necessary repairs be carried out to prevent possible accidents.
3. It was proposed, with the students' unanimous agreement, that the need for waste bins inside the lecture halls be reported to the Faculty Secretariat and that the necessary provision be ensured.
4. It was deemed necessary, for the comfort of the instructors, to replace the computer monitors in the lecture halls with larger-screen, higher-quality products, and their replacement was requested if possible.
5. It was reported that the projection image quality in the lecture halls was progressively deteriorating, causing inconvenience to students, and the necessary maintenance was requested.
6. The request made in the previous term but not implemented — that the hours for the restrooms be determined and posted visibly at the entrances so that students would not be inconvenienced — was reiterated.
7. Students reported that, compared to the previous term, paper towels were generally missing in the restrooms and there was no hot water, and requested that the necessary arrangements be made.
8. It was requested that the Medical Students' Council be informed by the Dean's Office regarding the completion date of the hospital annex building currently under construction.
9. The cafeteria problem affecting our Faculty's students has grown considerably worse this term, to the point that clerkship doctors have been unable to eat. It was requested that this matter be discussed at MÖTEK and that the Dean's Office and the Chief Physician's Office provide support to students and carry out the necessary work.
10. Students raised the need for microphones and monitors in the hospital classrooms, requesting that the necessary budget be provided to supply them; if this poses a budget problem, they requested that the need be met this year in the 4 larger clerkship classrooms instead, and this was proposed to the Dean's Office.
