

SÜLEYMAN DEMİREL UNIVERSITY
FACULTY OF MEDICINE
Medical Students' Council (T.Ö.K.)

Meeting Minutes

Meeting No	18
Meeting Date	16 December 2024
Venue	Dean's Office Building, Hall A

AGENDA ITEMS

1. Review of the matters to be carried out within the scope of the board's activities
2. Collecting general problems and suggestions
3. Removing graduates from the board and adding new members

SCOPE

1. In our hospital, particularly at the rear entrance, the outdoor stairs have become slippery with the arrival of the winter months. To prevent this from creating a hazard, it was requested that the hospital administration take measures such as mats or non-slip tape on all outdoor stairs. It was decided that this item would be forwarded to the Hospital Chief Directorate.
2. It was reported that the university wifi networks in the hospital classrooms were insufficient, and it had been requested that an access-point distribution device be installed in each classroom; the hospital had stated that the installation would be carried out during the summer months. Following the feedback received, it was reported that the distribution devices had still not been installed and that students' internet access problems were continuing. It was decided that this item would be forwarded to the Hospital Chief Directorate.
3. Even though the heating in the hospital classrooms is switched off, the classrooms become very hot, which affects the efficiency of lessons. It is requested that a possible solution be implemented by the hospital. It was decided that this item would be forwarded to the Hospital Chief Directorate.
4. The students expressed the need for the opening time of the medical students' cafeteria to be moved to 12:35. It was requested that the necessary support be provided by the Rectorate.
5. It was reported that the Hepatitis B vaccinations of our faculty's Term 4 students had not yet been administered and were continually being postponed. It was requested that the vaccinations be administered promptly.
6. It was stated that attendance in classes in Terms 1, 2 and 3 was low, and therefore a request was raised for the attendance-taking system to be activated.
7. In the lecture hall section, the exit door located opposite the classroom entrance is kept locked. Due to the inadequacy of social space for our students, it was requested that the necessary measures be taken in that area to create a space.
8. It was proposed that benches and gazebos be provided in suitable locations around our lecture halls, and that social spaces be increased.
9. A request was made for chairs for our faculty's study halls, so that the missing chairs would be made up.
10. Students view negatively the practice of taking public health intern groups to congresses, activities, and project-type events organized outside our faculty (by the Rectorate or other faculties) under a mandatory attendance requirement (excluding projects within the public health clerkship itself). It was stated that voluntariness should be the basic principle for such events, and it was requested that the mandatory requirement be removed for future events.
11. The laboratory courses in Terms 1, 2 and 3 are conducted by dividing students into groups. The courses that follow the laboratory session cause the first groups to wait for a long time. In the preparation of the 2025-2026 term course schedules, it was proposed that, to the extent the schedule allows, no theoretical course be placed after laboratory hours.
12. Our board members have been updated with the persons on the attached list.
